Personalise and buy your perfect BMW online. Find out more at www.bmwretailonline.co.uk

THE NEW BMW 5 SERIES SALOON.

Building upon its long and prestigious heritage over the past six generations the new BMW 5 Series Saloon showcases a perfect combination of both athletic and elegant features. The new BMW 5 Series Saloon represents everything you would expect from a BMW with pioneering technology, luxury interior and exterior aesthetics, whilst providing best-in-class driving dynamics.

The ground breaking innovations offering versatile connections between the driver, car and the outside world include the latest iDrive system and the intelligent assistance systems that provide a comprehensive range of interventions and alerts. With the introduction of the xDrive fully variable all-wheel drive and a choice of SE or M Sport models, you will be at the centre of an exceptional driving experience in the new BMW 5 Series Saloon – it's all about your drive.

BMW EFFICIENT DYNAMICS.

EfficientDynamics is BMW's award-winning programme of technologies designed to reduce CO₂ emissions and improve fuel economy, without compromising on performance or driving dynamics. These technologies are standard on every new BMW and could lower your fuel and tax costs, as well as ensure a lower benefit in kind tax rating for company car drivers. You can find out more about the benefits of BMW EfficientDynamics, as well as compare your own vehicle against any BMW 5 Series Saloon model at www.bmw.co.uk/EfficientDynamics

BMW EFFICIENT DYNAMICS.
LESS EMISSIONS. MORE DRIVING PLEASURE.

EXTERIOR.

The new BMW 5 Series Saloon is the most advanced executive car today. With a simplified model range to reduce complexity without compromising choice, and with the option of SE, M Sport and the new xDrive models, you can be sure there is a model for you. There is an extensive range of choice in the new BMW 5 Series Saloon with optional exterior colours, exterior trims and light alloy wheels including BMW Individual wheels for a true BMW experience.

The design of the new BMW 5 Series Saloon immediately draws your attention with the LED Headlights and the L shaped LED taillights of which typify a BMW. Optional BMW Icon Adaptive LED Headlights with full 'White' LED Headlights for low and high beam further enhance the striking and dynamic nature of the vehicle.

The integration of the latest innovations such as the optional Remote 3D View and Remote parking, parks your vehicle in tight spaces with you outside of the vehicle, offering greater practicality and assurance.

INTERIOR.

The interior of the new BMW 5 Series Saloon offers timeless luxury of the highest order. The Ivory White Dakota leather upholstery with Exclusive stitching and Black colour world comes as standard on M Sport models. This is perfectly complemented by the optional Finesline Ridge fine-wood interior trim with Pearl Chrome highlight that extends into the inside of the doors. The overall result, a contemporary, first-class atmosphere with an even more compelling appearance.

With the new BMW 5 Series Saloon, luxury and versatility combine. Utmost elegance unites with innovative features. Extend this luxury for your passengers with optional automatic air conditioning with four-zone control. Controlled by separate displays and allowing individual climate comfort for front and rear seat passengers.

MODEL RANGE HIGHLIGHTS.

The new BMW 5 Series is available in a variety of engine and model variants, each providing a different level of standard specification. These tables highlight some of these equipment differences between them. For further details, contact your local BMW retailer.

SE Model Equipment

- 17" light alloy V-spoke style 618 wheels (520d / 520d xDrive only)
- 18" light alloy Multi-spoke style 619 wheels (530i / 540i xDrive / 530d / 530d xDrive only)
- 20GB Hard Disc Drive (HDD) memory
- Air conditioning, automatic with two-zone control
- Active Air Stream Kidney Grille
- Ambient lighting
- Automatic transmission with gearshift paddles (520d / 520d xDrive only)
- Bluetooth Hands-free facility with USB audio interface and Voice Control

Insurance group figures refer to 50 Group Rating System.

VED rates

VED rates for brand new cars are determined by their CO₂ emissions figure. First year VED applies to the first year of ownership. Annual VED rates apply thereafter. The new BMW 5 Series Saloon models fall into one of the five categories listed below:

CO ₂ emissions (g/km)	Band B 101-110	Band C 111-120	Band D 121-130	Band E 131-140	Band G 151-165
First year VED	£0	£0	£0	£130	£185
Annual VED (second year onwards)	£20	£30	£110	£130	£185

Key

¹= BIK tax rate and VED band dependent on chosen wheel size.

On the road price

The recommended on the road price includes:

Delivery and BMW Emergency Service	£700
Number plates	£25
Vehicle first registration fee	£55
First year Vehicle Excise Duty	See left

The new BMW Connected App. Your personal mobility assistant.

The BMW Connected app learns your mobility routines, reads your calendar and knows when you need to leave, providing customers with a personal experience that is integrated into their everyday life. The app will allow customers to fully unleash the capabilities of BMW's innovative technologies intuitively through your smartphone.

Learned destinations

BMW Connected memorises the customer's most frequently travelled routes and provides them as 'learned destinations' for future journeys. If destinations are entered repeatedly into the navigation system, they are automatically listed at the usual time.

Remote Services^{1,2}

Stay in touch with your BMW where ever you are. You can perform online searches powered by Google™, find your vehicle location and lock & unlock your doors.

Estimated time of arrival

Never be late again with detailed updates of your regular routes and alternative options so you can manage your journey and avoid delays.

Last mile directions

Get detailed walking directions from your parking spot to your destination. A map with a location pin also shows where you last parked once you're ready to head back to your car.

Time to leave

A notification on your Apple iPhone® or Apple Watch® recommending when you should leave in order to arrive on time.

BMW ConnectedDrive. In touch with your world.

The BMW ConnectedDrive Services & Apps are on hand to make sure you have more time for the important things in life. Various innovations by BMW make things more convenient for you every day – whenever you want.

Real Time Traffic Information (RTTI)¹ provides a precise account of current traffic in real time. The information is presented on the Navigation map using colourful visualisation of traffic status, with diversion recommendations based on the current traffic situation.

Concierge Service³ is a personal telematic call service that connects you to a BMW operator, who will be able to quickly access the information you need 7 days a week, 24 hours a day. Information can be sent directly to your BMW and Navigation system.

Emergency call¹ is standard for every new BMW. With either the manual or the automatic emergency call, details of your vehicle and location will be sent directly to an Emergency Service Centre. Immediate action can be taken and assistance dispatched without delay.

Online entertainment⁴ is a Music on Demand functionality that uses a built-in vehicle SIM to access a library of over 40 million songs with either Deezer or Napster. Now includes 'Connected Music', assisting with song identification whilst listening to the radio. The option includes a 12 month subscription.

Key

¹ = Available and active for the lifetime of the vehicle. ² = GPS Tracking in iDrive Settings menu must be activated. Not all features are available on all models. Please consult your local BMW Retailer for full details. ³ = Active for 3 years, renewable thereafter. ⁴ = Screen display may vary on different models.

BMW CONNECTED DRIVE SERVICES.

1. General information

BMW (UK) Limited of Summit ONE, Summit Avenue, Farnborough, Hampshire, GU14 0FB (hereafter referred to as "BMW") provides the customer with vehicle-specific information and support services under the name "BMW ConnectedDrive" (hereinafter referred to as "Services"). Except where the following description of the individual Services explicitly states otherwise, BMW does not collect, store or process customer data for the Services listed here. For the provision of Services for which the collection, storage and processing of personal data is necessary, the customer shall be informed in advance in order to obtain his/her consent. Services are provided by means of a SIM card installed in the vehicle. Call and data-connection costs are included in the price of the Services. Insofar as it is necessary for the substantive organisation and utilisation of the Services BMW collects, stores and processes vehicle-related data within the legal stipulations.

2. BMW ConnectedDrive basic Services

The BMW ConnectedDrive basic Services "TeleServices" (6AE) and "BMW Emergency Call" (6AC) have already been activated at the point of vehicle transfer.

a. TeleServices (6AE)

The "TeleServices" Service ensures the mobility of the customer. If required or when triggered or commissioned by the customer, the vehicle's technical data (e.g. service information concerning wear parts, vehicle-status information such as check-control notifications, battery-charge status, data for identifying and locating the vehicle in the event of a breakdown) shall be transferred to BMW. In the event that a service is required, these items of data shall be forwarded to the responsible service partner, BMW Mobile Care or respective service providers for the purposes of making contact and arranging an appointment, where they shall be retained until all procedures have been properly completed. Beyond this, no data shall be forwarded to third parties. On occasion technical data shall be transferred from the vehicle to BMW where it shall be evaluated to aid the further development of BMW products. This is known as the "Teleservice Report". This data is exclusively technical, vehicle-related data. Other data such as positioning data shall not be transferred as part of the "Teleservice Report". The "TeleService Battery Guard" continuously monitors the battery-charge status of the vehicle. If the battery-charge status falls below a fixed value, the responsible service partner will be informed. The responsible service partner will then contact the customer if necessary to arrange a service appointment. By registering in the BMW ConnectedDrive Customer Portal, the customer can also be informed about a critical battery status by SMS message or email, for example if the parking lights, side lights or hazards are left on.

b. BMW Emergency Call (6AC)

The vehicle's identification and location is required for the use of the "BMW Emergency Call", and it is also necessary to transmit the information required to provide assistance to the respective emergency-service centre. The user's request and the data required may be transmitted to service providers commissioned by BMW to provide the Service – in that case, these items of data shall only be used to help provide the Service and shall be retained until all procedures have been properly completed. Beyond this, no data shall be forwarded to third parties.

c. BMW Roadside Assistance

The Service "BMW Roadside Assistance" can be triggered manually by the customer in the event of a technical fault. In addition to the current position of the vehicle, the vehicle identification number, colour and model of the vehicle are also transferred to the Mobile Service of BMW during this process.

The data is transmitted to the service provider commissioned by BMW to perform the Services, who uses this data for the purposes of managing the service provision and stores this until the operations have been duly processed. No additional transfer of the data to third parties takes place.

d. BMW Customer Hotline

The Service "BMW Customer Hotline" connects the customer with an employee of BMW customer service. No vehicle or customer data is transmitted during this process.

e. Automatic Map Update (depending on the vehicle equipment)

The "Automatic Map Update" service automatically updates the map data stored in the BMW navigation system of the home country up to four times a year. The service runs for a period of three years from the initial registration of the vehicle. The customer may terminate the service by giving six weeks' notice in writing to bmwconnecteddrive@bmwfin.com. Via "My BMW ConnectedDrive" at www.bmw-connecteddrive.co.uk the customer can renew the service at a charge after they have expired. In order to use the service "Automatic Map Update" the vehicle's identification and localisation during the update process are prerequisite.

f. Interconnection of the vehicle with portals and apps (depending on the vehicle equipment)

The Service "Interconnection of the vehicle with portals and apps" transmits vehicle data (e.g. vehicle position, service information, range etc.) upon relevant changes of the vehicle's state (e.g. start of drive, end of drive, locking etc.) from the vehicle to BMW. This data serves to display the geographic vehicle position, the route to the vehicle and further vehicle condition information in BMW apps and BMW customer portals. The BMW apps are available for iPhone® in the Apple App Store™ and for Android™ in Google Play™. Further information – including that on data processing – can be viewed prior to installation of the app.

3. BMW Online Services (6AK)

The "BMW Online" (6AK) Service is activated for 36 months from the completion of the vehicle construction plus an additional 30 days for transport (or plus 90 days for X3, X4, X5 and X6 models which are built in the United States). The customer can extend the Service for an additional charge beyond the initial free-of-charge period via the BMW ConnectedDrive Customer Portal.

The vehicle's identification is required for the use of the Service and it shall also be necessary to process the information required to provide assistance. The data shall then be deleted. When Points of Interest queries are used, the customer request may be transmitted to service providers commissioned by BMW to provide the Service – in that case, these items of data shall only be used to help provide the Service and shall be retained until all procedures have been properly completed. The data shall then be deleted. Beyond this, no data shall be forwarded to third parties.

4. Concierge Service (6AN)

The "Concierge Service" (also referred to as "Information Plus") (6AN) Service is activated for 36 months from the completion of the vehicle construction plus an additional 30 days for transport (or plus 90 days for X3, X4, X5 and X6 models which are built in the United States). The customer can extend the Service for an additional charge beyond the initial free-of-charge period via the BMW ConnectedDrive Customer Portal.

To use the Service, the customer is connected to the BMW call centre at the push of a button using the integrated telephone unit. In this way, data concerning the vehicle's identification, location and – if route guidance is activated – the selected route may be transmitted to the service providers commissioned by BMW to provide the Service – in that case, this data shall only be used to help process the provision of the Service and shall be retained until all procedures have been properly completed. The data shall then be deleted. Beyond this, no data shall be forwarded to third parties.

5. Real Time Traffic Information (6AM)

The "Real Time Traffic Information" (6AM) Service is activated for 36 months from the completion of the vehicle construction plus an additional 30 days for transport (or plus 90 days for X3, X4, X5 and X6 models which are built in the United States). The customer can extend the Service for an additional charge beyond the initial free-of-charge period via the BMW ConnectedDrive Customer Portal.

The traffic information required for the Service is calculated by a variety of means including using what is known as Floating Car Data. In this sense, every ConnectedDrive-capable BMW functions as a "mobile traffic reporter" (Floating Car). The individual position and sensor data of the vehicle calculated during the trip is transferred – completely anonymously – to BMW and a service provider together with up-to-date time information.

6. Remote Services (6AP)

Use of the "Remote Services" (6AP) via the "My BMW Remote" smartphone application requires registration in the BMW ConnectedDrive Customer Portal www.bmw-connecteddrive.co.uk.

Using this Service, the customer can lock or unlock his/her vehicle from a distance via smartphone and, in the case of selected vehicles, flash the lights. On request of the customer, vehicle condition information such as the geographic vehicle position are transmitted from the vehicle to BMW. Furthermore, with the special equipment option of auxiliary heating, the customer can also programme the heating periods. The "My Remote App" app is available for iPhone® in the Apple App Store™ and for Android™ in Google Play™. Further information – including that on data processing – can be viewed prior to installation of the app.

7. Online Entertainment (6FV)

The "Online Entertainment" (6FV) Service is valid for a period of one year from activation in the vehicle. Upon purchase of this Service, a voucher is provided which is redeemable within three years of the vehicle's first registration and enables a 12 month subscription with a chosen BMW music provider. During the subscription period no data quantity restrictions apply and the subscription is accessible on third party applications which are supported by the music provider. Streaming music via this service is only possible within the following countries: Austria, France, Germany, Italy, Netherlands, Spain, Switzerland and United Kingdom.

8. eDrive Services (6AG)

"eDrive Services" comprises functions that are displayed to the driver in the vehicle, in BMW Apps and in the BMW customer portals. The service supports the driver with information relevant to electro-mobility.

The "Interconnection of the vehicle with portals and apps" [1.f] mentioned in this document will be extended with electromobility-related information (e.g. information on charging events that are transmitted additionally upon relevant changes of the vehicle's state such as start of charging, end of charging, charging interruption, charging error).

The service serves among others to verify and evaluate the quality of the charging stations. For this purpose, location information as well as charging process information is sent to BMW. Verified and evaluated charging stations are displayed to the customer in the navigation system, BMW Online, BMW Apps and BMW customer portals. Furthermore, possible locations for new charging stations or locations can be identified.

The "Efficiency" service utilises vehicle condition information to calculate driving performance indexes which are displayed in BMW Apps and in BMW customer portals.

9. Availability of the Service

The complete range of Services is only available for customers whose vehicles are approved in United Kingdom, and only within United Kingdom.

"BMW Emergency Call" (6AC) is available to customers in United Kingdom, Germany, Austria, Italy, San Marino, Vatikan, France, Monaco, Switzerland, Liechtenstein, Belgium, Luxembourg, the Netherlands, Ireland, Spain, Andorra, Portugal, Sweden, Norway, Czech Republic, Poland, Turkey and Russia. "TeleServices" (6AE), "Concierge Service" (6AN), "Remote Services" (6AP) and "BMW Online" (6AK) can be accessed on any mobile communication network in Europe. When used abroad, the range and characteristics of the service may vary from the range and characteristics described above and may vary from country to country. "Real Time Traffic Information" (6AM) is available in United Kingdom, Germany, Austria, Italy, France, the Netherlands, Switzerland, Belgium, Republic of Ireland, Spain, Portugal, Sweden and Norway. "Online Entertainment" (6FV) is available in United Kingdom, Germany, France, Italy, Spain and the Netherlands.

10. Deactivation

The customer may have the BMW ConnectedDrive basic Services "TeleServices" (6AE) and "BMW Emergency Call" (6AC) deactivated at any time at an authorised BMW retailer, a regional BMW branch or an authorised BMW workshop. Deactivation of this Service will also deactivate the SIM card installed in the vehicle. **This results in the Emergency Call in the vehicle also not functioning.** The other Services can also be deactivated by the customer (from August 2014) via the BMW ConnectedDrive Customer Portal ("My BMW ConnectedDrive").

For further information on BMW ConnectedDrive and the General Terms and Conditions of Service for ConnectedDrive, please see:
www.bmw.co.uk/connecteddrive-information.
