A Super Truck...

YENKO® badged Brembo 6-piston big front brake calipers in red (custom colors optional) with 16.1" Vented Rotors.

Heavy-duty 6-speed automatic transmission and torque converter with performance upgrade.

State-of-the-art, high-efficiency super-charger is as quiet during operation as any of GM's high-performance supercharged cars.

To provide an aggressive low-rider look, the 2021 YENKO® Silverado includes our sport suspension system that lowers the truck 2" in front and 5" in the rear, and includes higher-rated front and rear performance shocks.

Heavy-duty rear sway bar assembly and heavy-duty traction bars and bushings help control acceleration.

Unique 6-spoke 22" x 10" front and rear wheels are machined from aircraft quality aluminum forgings for maximum strength and lightest weight possible (14 lbs. less than 22" factory wheels) reducing the unsprung weight to significantly improve the handling of the truck. Wheels are available in bright silver, satin black, or satin black with red line stripe. Performance rated 305/45R22 tires are included.
