

MODEL YEAR 2022

DUCATI SCRAMBLER 1100 RANGE

2021 marks the fiftieth anniversary of the introduction of the air-cooled twin-cylinder engine on a Ducati, seen for the first time in 1971 on the Ducati 750 GT. For the occasion, Ducati Scrambler has decided to pay homage to the history of this famous engine by adding a celebratory model to the range: this is how the Ducati Scrambler 1100 Tribute PRO was born.

The Ducati Scrambler 1100 Tribute PRO is a motorcycle that has been created with enthusiasts of modern-classic motorcycles and fans of motorcycle history, particularly that of Ducati, in mind.

The new Ducati Scrambler model pays homage to the history of the Borgo Panigale company through the choice of a fascinating "Giallo Ocra" livery, a colour particularly relevant at that time for Ducati, to which the Ducati Scrambler 1100 Tribute PRO adds further style details such as the use of the iconic Ducati logo of the 1970s, designed by Giugiaro, and black spoked wheels. Further distinctive styling details are represented by the circular rear-view mirrors and the brown seat with dedicated stitching.

From a technical point of view, the bike has the characteristics of the Ducati Scrambler 1100 PRO family. It has an iconic and at the same time original design, an agile chassis and a 1.079 cc engine characterized by generous torque from low revs.

The Ducati Scrambler 1100 Tribute PRO comes standard with three Riding Modes, each associated with different Power Modes and various levels of Ducati Traction Control (DTC). Furthermore, thanks to the front headlight with LED light guide, the bike is always visible and recognizable even during the day.

Within the range of the most performing bikes of the Ducati Scrambler family, the Ducati Scrambler 1100 Tribute PRO joins the Ducati Scrambler 1100 Dark PRO models, the gateway to the 1100s of the "Land of Joy", and Ducati Scrambler 1100 Sport PRO, the sportiest and most muscular version of the Ducati Scrambler.

The entire 1100 range is equipped as standard with ABS Cornering and Ducati Traction Control (DTC) for safe riding in any situation. The models are also designed for the Ducati

Multimedia System (DMS), which enables a smartphone to be connected to the bike via Bluetooth, while the USB socket positioned under the seat is standard.

The entire 1100 range is also available in a 35-kW version for A2 license holders.

To give fans of the "Land of Joy", the universe that truly represents self-expression in Ducati, the opportunity to express their attitude to customization in the best way, Ducati Scrambler offers a wide choice in terms of clothing and accessories. The clothing line includes helmets, technical gear and lifestyle products (which can be purchased in dealerships or through the [online shop](#)), while the accessories collection includes numerous items, such as seats, tank panels and approved exhausts, all viewable through the [online configurator](#).

The presentation videos of the Ducati Scrambler models, and all the original contents produced in the "Land of Joy" are visible in the dedicated section "Scrambler Media Box" ([link here](#)) on the scramblerducati.com website.

Ducati Scrambler 1100 Tribute PRO: Mark your Roots

The new Ducati Scrambler 1100 Tribute PRO was created to pay homage to the history of the air-cooled twin-cylinder engine, fifty years after it was first introduced on a Ducati, in 1971 with the Ducati 750 GT.

The new Ducati Scrambler model pays tribute to the history of the Borgo Panigale company through the choice of a fascinating "Giallo Ocra" livery, a colour particularly in vogue at the time, which Ducati used on the twin-cylinder 450 Desmo Mono and 750 Sport of 1972. This tribute also recalls the 750 Supersport used by the Spaggiari team since 1975, which accompanied the start of the epic period of another great Ducati rider: Franco Uncini. To the celebratory livery, the Ducati Scrambler 1100 Tribute PRO adds further styling details such as the use of the iconic 1970s Ducati logo, designed by Giugiaro, black spoked wheels, circular rear-view mirrors and brown seat with dedicated stitching, which elegantly complete the celebratory livery.

The Ducati Scrambler 1100 Tribute PRO is a motorcycle created for lovers of modern-classic bikes and for fans of motorcycle history who are aware of the most important feats achieved by Ducati.

From a technical point of view, the new Ducati Scrambler model has the characteristics of the Ducati Scrambler 1100 PRO family, made up of enjoyable and powerful models, characterized by an iconic and at the same time original design. The "Land of Joy" 1100 range represents the best option for those who want to ride a motorcycle with an engine characterized by a generous torque, available from low revs, and experience even longer journeys in the company of a passenger in complete serenity, thanks to the large 15-litre steel fuel tank and comfortable dual seat.

The engine is the 1079 cc L-twin with desmodromic distribution and air cooling that produces 86 hp at 7,500 rpm and 9.2 kgm of torque at 4,750 rpm.

The agile chassis, typical of all bikes in the Ducati Scrambler family, allows you to have fun in complete safety, thanks to the support offered by ABS Cornering and Ducati Traction Control as standard. This combination of factors makes the bikes of the Ducati Scrambler 1100 PRO family ideal for riders who want to be part of the Ducati Scrambler family, both in and out of city centres.

Ducati Scrambler 1100 Tribute PRO

- Colours
 - "Giallo Ocra" livery with black frame and subframe, brown seat
- Equipment
 - Teardrop steel tank with interchangeable aluminium panels
 - Seat height of 810 mm for perfect manoeuvrability when idle

 - Wide handlebar for a relaxed riding position
 - Front light with glass lens and DRL with black frame and "X"
 - Rear light with LED diffusion technology
 - Dual element LCD instrumentation
 - Air-cooled 1079 cc L-twin engine
 - Belt cover in machined aluminium
 - Twin-spar steel trellis frame and aluminium subframe
 - Cast aluminium swingarm
 - Black painted aluminium covers
 - 18" spoked wheels at the front and 17" at the rear
 - Pirelli MT60 RS tyres optimized for the Ducati Scrambler
 - Bosch Cornering ABS
 - Traction Control
 - 3 Riding Modes (Active, Journey and City)
 - USB socket for mobile phone charging under the seat

Ducati Scrambler 1100 Dark PRO

The Ducati Scrambler 1100 Dark PRO represents the entry model to the "Land of Joy" 1100 range. An elegant, pure and fully customizable bike, characterized by its "Dark Stealth" livery, combined with a tubular steel frame and rear aluminium subframe, both black.

The 1100 Dark PRO has the same iconic and original design as the other two models in the range but differs from its "big brothers" for the matt black colour with natural anodized aluminium parts, as well as for its customization with classic-style rear-view mirrors.

Made with the aim of fully conveying the typical elements of the Ducati Scrambler brand, such as purity, essentiality and a sense of freedom, the 1100 Dark PRO is the right bike to ride and conquer every road with personality. Black heart, Ducati Scrambler soul.

Ducati Scrambler 1100 Dark PRO

- Colours
 - "Dark Stealth" with black frame and subframes, black seat
- Equipment
 - Teardrop steel tank with interchangeable aluminium panels
 - Low seat (810 mm) for perfect manoeuvrability when idle
 - Twin side exhaust
 - Low number plate holder
 - Wide handlebar for a relaxed riding position
 - Front light with glass lens and DRL with black frame and "X"
 - Rear light with LED diffusion technology
 - Dual element LCD instrumentation
 - Air-cooled 1,079 cc L-twin engine
 - Belt cover in machined aluminium
 - Twin-spar steel trellis frame and aluminium subframe
 - Cast aluminium swingarm
 - Natural anodized aluminium cover
 - Ten-spoke alloy wheels, 18" at the front and 17" at the rear, with visible machining
 - Pirelli MT60 RS tyres optimized for the Ducati Scrambler
 - Bosch Cornering ABS
 - Traction Control
 - 3 Riding Modes (Active, Journey and City)
 - Round mirrors

Ducati Scrambler 1100 Sport PRO

The Ducati Scrambler 1100 Sport PRO represents the sportiest and most muscular expression of the "Land of Joy". Equipped with Öhlins suspension, low handlebars and Café Racer style rear-view mirrors to increase riding comfort, the Sport PRO version is visually characterized by the "Matt Black" colour of the fuel tank with the 1100 logo painted on the interchangeable panels and the brown seat. The black frame is made of tubular steel and perfectly matches the aluminium rear frame and the aluminium covers, which are also black.

The rear is the most characteristic part of this Ducati Scrambler thanks to the twin right side exhaust and the low number plate holder that contribute to making the bike compact. Another distinctive element is the front light with glass lens and DRL (Daytime Running Light) with frame and characteristic black "X."

The engine of the Ducati Scrambler 1100 Sport PRO is the 1,079 cc L-twin with desmodromic distribution and air cooling that delivers an output of 86 hp at 7500 rpm and 9.2 kgm of torque at 4,750 rpm.

Ducati Scrambler 1100 Sport PRO

- Colours
 - "Matt Black" with 1100 logo painted on the panels, black frame and subframe, black rims, brown seat
- Equipment
 - Teardrop steel tank with interchangeable aluminium panels
 - Low seat (810 mm) for perfect manoeuvrability when idle
 - Twin side exhaust
 - Low number plate holder
 - Low handlebar in variable-section aluminium
 - "Café Racer" mirrors
 - Front light with glass lens and DRL with black frame and "X"
 - Rear light with LED diffusion technology
 - Dual element LCD instrumentation
 - Air-cooled 1,079 cc L-twin engine
 - Belt cover in machined aluminium
 - Twin-spar steel trellis frame and aluminium subframe
 - Die-cast aluminium swingarm
 - Cover in black painted aluminium
 - 18" spoked wheels at the front and 17" at the rear
 - Pirelli MT60 RS tyres optimized for the Ducati Scrambler
 - Bosch Cornering ABS
 - Traction Control
 - 3 Riding Modes (Active, Journey and City)
 - USB socket for mobile phone charging under the seat
 - Dedicated seat cover
 - Adjustable Öhlins fork and shock absorber
