

2023

1100HP & 1150HP SUPERCHARGED

YENKO/SC[®]
CAMARO

WARNING: This vehicle produces excessive amounts of horsepower. Horsepower is addictive and can cause heart palpitations, feelings of exhilaration and euphoria.

For more than **30** years, Specialty Vehicle Engineering (formerly **SLP**) has been a Second Stage Vehicle Manufacturer and Tier One Supplier to GM and its dealers, having built over **65,000** cars, trucks, and SUV specialty vehicles; making us the **#1** GM Specialty Vehicle Manufacturer in the USA! That's why our company was chosen as the exclusive vehicle builder of all the current generation **YENKO® Supercars**.

The Ultimate

*...from the **#1** GM Specialty Vehicle*

Camaro Experience...

sYc

icle Manufacturer!

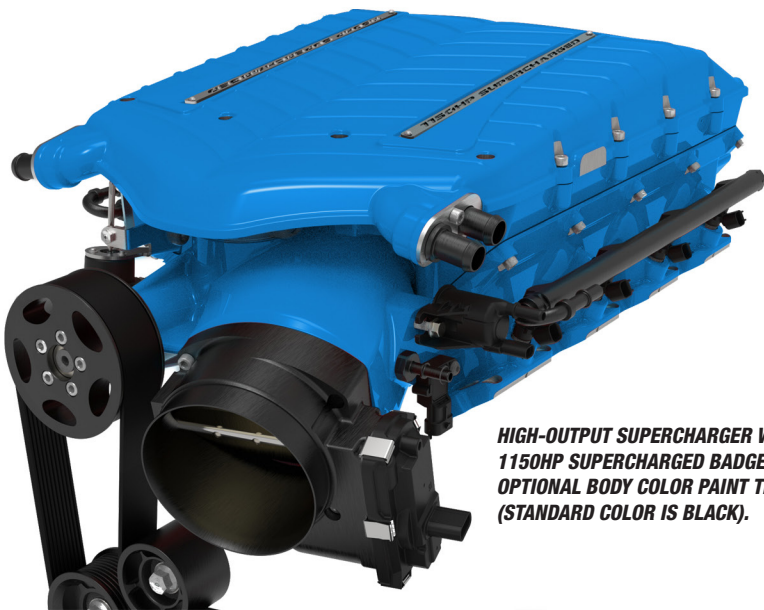

In 1969 the muscle car wars were in full swing, with GM, Ford and Chrysler each developing their own big-block powered performance cars. Not to be outdone, Chevrolet's Central Office Production Order (COPO) system produced a limited run of

Camaros with the now infamous ZL-1 all-aluminum big-block engine. Now in the spirit of those awesome vehicles, Specialty Vehicle Engineering will build **50** each of these 2023 YENKO/SC® Stage **I** and Stage **II** Camaros and with **1100HP** or **1150HP**, they'll go very fast... literally!

Our powerhouse engine delivers **1100HP** with 910 lb.-ft. of torque (Stage I) and **1150HP** (Stage II) with 960 lb.-ft. of torque and features a blueprinted LT-1 aluminum block, computer-balanced race-quality rotating assembly, including forged 4340 steel crankshaft and H-beam steel rods, forged aluminum pistons, CNC ported high-flow LT-4 cylinder heads with ARP high-strength head and main studs, a custom

HIGH-OUTPUT SUPERCHARGER WITH 1100HP OR 1150HP SUPERCHARGED BADGES. SHOWN WITH OPTIONAL BODY COLOR PAINT TREATMENT (STANDARD COLOR IS BLACK).

supercharger with a 10-rib dedicated belt drive system utilizing an upgraded fuel system and injectors, a larger throttle body, and custom stainless steel exhaust system.

YENKO/SC® side stripe and hood scoop cowl graphics available in 9 colors plus optional high-gloss carbon fiber.

YENKO® Camaro Yet!

Powerful

To maximize engine performance, there is no substitute for cubic inches or supercharging. That's why Specialty Vehicle Engineering developed its own supercharged custom-built 416 C.I.D. (6.8L) engine, based on the production 6.2 Liter LT-1 engine, that's included in our 2023 YENKO® Stage **I** and **II** Camaros. These limited edition 2023 YENKO/SC® supercars are available exclusively through GM dealers throughout the USA and Canada.

YENKO® Crest exterior body badges for front grille, fenders, and rear panel.

YENKO® badged brake calipers in standard red (custom colors optional).

Nitto 285/30ZR20 front and 305/30ZR20 rear performance race tires.

ling Still!

Forged light-weight multi-spoke aluminum wheels available in 2 finishes (brushed aluminum, matte black) with silver sYc centercap graphics. Red line wheel stripes for matte black wheels are available.

Based off the SS 1LE with an automatic or manual transmission, the 2023 YENKO/SC® **1100HP Stage I** and **1150HP Stage II** Camaro includes all of the great performance features the 1LE offers, to properly balance the awesome power of the supercharged engine. Features like Magnetic Ride Control, Electronic Limited-Slip Differential, Performance-Tuned

Body color painted carbon fiber hood with exposed carbon fiber hood scoop, sYc® logo, and 1100HP or 1150HP badges in chrome/red or black chrome/red. New for '23 are the hood scoop cowl stripes to match the YENKO/SC side stripes.

suspension with unique bushings, springs and stabilizer bars, and heavy-duty cooling system including engine oil cooler, dual outboard radiators, transmission cooler and rear differential cooler. The functional 1LE front splitter helps reduce nose lift and the rear spoiler keeps the rear end firmly planted on the race track. The 1LE also features Recaro Performance seats that keep you planted in position.

The 2023 YENKO/SC® **1100HP Stage I** and **1150HP Stage II** Camaro's unique appearance will get everyone's attention instantly. The exciting YENKO® side stripes make a dramatic statement, along with the body color painted carbon fiber hood with exposed carbon fiber hood scoop that blends perfectly with the lines of the Camaro. **1100HP** or **1150HP** badges on the raised hood scoop cowl and decklid spoiler will make the competition think twice.

The limited edition **2023 YENKO/SC® Stage II** Camaro is only available in coupe with a manual transmission for optimal race track performance while the Stage I Camaro is only available in coupe with an automatic transmission for those racers who prefer not to use a clutch. **ONLY 50 EACH OF THE 2023 YENKO/SC® STAGE I AND STAGE II CAMAROS WILL BE BUILT.**

An American

-Made *Supercar* ***Unlike Any Other!***

Forged light-weight multi-spoke aluminum wheels available in 2 finishes (brushed aluminum, matte black) with silver sYc centercap graphics (custom colors optional). Red line wheel stripes for matte black wheels shown are optional.

YENKO® Styling...

In addition to its awesome horsepower, the 2023 YENKO/SC® 1100HP Stage I and 1150HP Stage II Camaros include many unique interior and exterior features that set them apart from the stock Camaro. Features like the body color painted carbon fiber hood with exposed carbon fiber hood scoop, OE-quality 1100HP or 1150HP hood cowl badges, YENKO® crest badges and unique side stripes give the exterior an instantly recognizable appearance. The interior also displays the YENKO® trademark with embroidered floormats, headrest logos and a YENKO® crest power badge.

- 1 Body color painted carbon fiber hood with exposed carbon fiber scoop and sYc logo®, hood scoop cowl stripes to match YENKO/SC® side stripes, non-functional scoop, grille.
