

Pricing confirmed for the all-new Škoda Superb

- › Škoda's flagship ICE model returns with the fourth generation that offers more space, enhanced design and a more efficient powertrain selection
- › New Superb Hatch priced from £34,865 OTR and Superb Estate from £36,165
- › Wider powertrain range: three petrol engines, two diesels and an improved plug-in hybrid with an electric range of more than 62 miles (100 km), plus the Superb debuts mild hybrid technology for the first time
- › Customers can choose from three trims levels: SE Technology, SE L and Laurin & Klement

Milton Keynes, 14 March 2024 – UK customers hankering after the latest Škoda model don't have to wait much longer, as the all-new Superb is now open for order, with prices starting from £34,865 OTR for the hatch and £36,165 OTR for the Estate; first deliveries expected from June 2024.

The all-new Superb boasts a refined design and a new range structure comprising Design Selections that offer different interior designs from fabric, to microsuede to leather depending on personal style. The trademark sense of space for which the Superb is renowned continues with the car's luggage capacity increasing to 690 litres - an extra 30 litres more than its predecessor, closely followed by the hatch which offers 645 litres of space in the boot.

The powertrain selection has increased with the new model, with six different powertrain variants available and power outputs ranging from 150 PS to 265 PS. Three petrol engines, including a 1.5 TSI now benefiting from mild-hybrid technology, are joined by two diesels. The Superb Estate iV features a second-generation plug-in hybrid drive that enables an all-electric range of more than 62 miles as well as DC charging. All models come with DSG.

The Superb has established itself as the ultimate car for comfort and provides exceptional space for passengers and luggage. The interior features a free-standing infotainment display measuring 13 inches and a well thought-out centre console with the move of the selector lever to the steering column. A head-up display is available as an option for the first time. The Škoda Smart Dials and the voice assistant Laura, soon to be complemented by ChatGPT, make light work of controlling numerous vehicle and infotainment functions, providing information that goes beyond the car's ecosystem. New elements include 15-watt wireless fast-charging and simultaneous ventilating of a smartphone, as well as back-friendly Ergo seats with ten pneumatically controlled massage cushions.

The new Superb has switched to a new production plant in Bratislava, and with a new production line comes a new range of colours. There will be two solid and six metallic paints available in the UK, with new six colours making their debut: Pure White, Ice Tea Yellow, Midnight Black, Pebble Silver, Cobalt Blue and Carmine Red.

The dimensions of the all-new Škoda Superb Estate

Length [mm]	4,902 (+40)
Width [mm]	1,849 (-15)

2.0 TSI	265 PS	400 Nm	7-speed DSG	4x4
Diesel				
2.0 TDI	150 PS	360 Nm	7-speed DSG	Front
2.0 TDI	193 PS	400 Nm	7-speed DSG	4x4

Superb SE Technology – from £34,865 (hatch) and £36,165 (estate) OTR

The entry-level SE Technology trim comes with an extensive standard specification that includes 17-inch Mintaka silver alloys, a 13-inch central infotainment display with integrated Sat Nav as well as a 10.25-inch Virtual Cockpit. The SE Technology is available with the Loft Design Selection that offers fabric upholstery and Gloss Black finishes - customers can upgrade to the Lounge Design Selection with the Grey Microsuede interior at an additional cost. For driver comfort, the base model offers four-way pneumatic lumbar support and extendable thigh support and both front seats are also complimented by heated seats and massage function.

There is an array of technology that comes into use when driving such as the Rear View Camera with washer, Adaptive Cruise Control with Speed Assist, Lane Assist Plus, Traffic Jam Assist and Traffic Sign Recognition. There are eight airbags and Keyless start/stop. The SE Technology has wireless mobile charging of speeds up to 15 W for one smartphone with an in-built cooling function.

Superb SE L – from £38,220 (hatch) and £39,520 (estate) OTR

Building on the specification of the SE Technology, the SE L trim adds larger 18-inch Dofida silver alloy wheels, rear LED lights with animated indicators and two rear fog lights. The new generation LED matrix beam headlights deliver a more powerful illumination and include LED daytime running lights, Dynamic Range Control and Cornering, Poor Weather Light and an all-weather light mode takes over the role of the fog lights. Electrically adjustable, heated, folding and driver side auto-dimming door mirrors with memory function also feature integrated indicators and logo projection.

The Suite Black Design Selection comes as standard with the SE L model and features a mix of leather and artificial leather with grey stitching. The upgraded SE L adds sports comfort seats with advanced massage function for the front seats. Drivers will also have the convenience of the electrically-operated boot with Virtual Pedal, and the Estate model adds the new simply clever feature of the Electric Sliding Parcel Shelf.

Superb Laurin & Klement (L&K) – from £46,100 (hatch) and £47,400 (estate)

The flagship model in the new Superb range, the Laurin & Klement, features 18-inch Belatrix aero anthracite alloy wheels and the exterior is enhanced with the dark chrome grille surround and rib elements as well as a rear diffuser strip in the same dark chrome material. Inside the range-topping L&K, the customer can choose either L&K Suite Black with black leather interior or the L&K Suite Cognac Design Selection. The cabin is further enhanced by the inclusion of a CANTON sound system that generates a superior sound quality, and a two-spoke leather, heated multi-function steering wheel with DSG paddles as well as heated rear seats, heated windscreen and heated washer nozzles.

Driving features include Park Assist, Trained Parking and an Area View camera. There are new features such as Progressive Dynamic Steering, which automatically increases the steering angle when it detects that the driver's steering response has come too late or is insufficient to avoid a collision, and the updated Dynamic Chassis Control Plus that supports an even wider range of damping characteristics.
