This is a former U.S. Army Helicopter with documented military history in Vietnam. This helicopter has been restored to its original paint and markings it had from an original picture dated from the late 1960s. This Huey saw action in Vietnam from 1968-1971. It has a colorful documented military history and served with several different units with 2398 hours in combat. We chose to restore it to the markings it had while serving with the 71<sup>st</sup> AHC Assault Helicopter Company.

After service in the US Army, it was transferred to the Singapore Air Force where it received excellent care and many years of service until 2005 when it was retired. We have completely inspected the helicopter and all ADs are complied with, the Huey is fully assembled and flying with FAA Experimental/Exhibition Certification. This helicopter is in stock military configuration with new exterior paint. Located in Olympia, WA this helicopter can be delivered by truck or flown home today! Own a real piece of history! Please contact [sales@nwhelicopters.com](mailto:sales@nwhelicopters.com) for more information.
