

SHELBY BAJA 700

2011-2014 SHELBY BAJA 700

To call the Shelby Baja 700 a 'Raptor' is like calling the SR-71 a jet. When you pack this much Shelby performance and off-road pedigree into this kind of truck, the only thing that might be as fast and capable in the wild might be a cheetah. But last we checked they didn't come with 4 doors and air conditioning.

The Baja 700 represents Shelby's ultimate development for the Ford SVT Raptor platform with over 700hp via a Whipple supercharger system, competition designed suspension from Rogue Racing and Baja-proven BFGoodrich K02 18" rubber. To name a few.

And speaking of moving fast, with only 50 of these limited edition trucks offered for \$45,000*, this truck won't sit idle. *Pun intended.*

Available from \$45,000

*Does not include base vehicle, Shelby retains all take-off parts
