

Get To Know Your Cybertruck
Resource Guide

Thank you for attending our **Get to Know Your Cybertruck** interactive session, and for completing the feedback survey. This resource guide contains helpful information that will guide you through your ownership journey.

Basics

Cybertruck Owner's Manual

This is where you'll find essential Tesla wisdom and specific details important to Cybertruck ownership.

Tesla Delivery Day

Everything you need to know on the day you take delivery of your Cybertruck.

Get to Know Tesla Charging

Learn how to stay charged anywhere you go with charging solutions at home and on the road.

Charging at Home

At Home

The most convenient place to charge your Cybertruck is at home, overnight. Learn about charging equipment, installation and more.

Accessories

Get everything you need to charge your Cybertruck, at home or on the go. Purchase Wall Connector, adaptors and more.

Find an Electrician

Find a Tesla Certified Electrician to safely install your at-home charging equipment.

Stats

View your charging history, spending and savings, all in the Tesla app.

Charging On the Road

Apartments

If you live in a multi-unit dwelling, your apartment or condominium may have a board, manager or owner who should be informed before installing any charging equipment.

Solar and Energy Products

Save money and power everything with clean energy by installing Tesla energy products.

Supercharging

Go anywhere with more than 50,000+ Superchargers globally. Cheaper than gas and capable of recharging. Review the [Fair Use Policy](#) for more on usage.

Maximizing Range

Tesla vehicles can travel farther on a single charge than most other electric vehicles.

Cold Weather Tips

Get the most out of your Cybertruck, even in cold weather. Learn about battery preconditioning, when to stay plugged in and more.

Destination Charging

In addition to Supercharging, Tesla maintains a network of thousands of Destination Chargers at hotels, restaurants and parking garages across North America.

Public Charging Adapter

Your Cybertruck comes with an adapter that allows you to charge at most public charging stations.

Access and Operation

Tesla App

The Tesla app is your central hub to access your Cybertruck and other Tesla products. Download it for iOS or Android and sign in with your Tesla Account email and password.

Voice Commands

Use voice commands to control your vehicle.

Stopping Mode

Due to regenerative braking, your Cybertruck stops differently than a gas car. You can adjust your preferences to control how your truck behaves.

Additional Information

Safety Overview

Every Tesla is built from the ground up with safety in mind. Learn more about active safety, passive safety and Tesla's global safety awards.

Roadside Assistance
