Dear Porsche enthusiast,

Thank you for taking the time and care to configure your Porsche. Decades ago, Dr. Ferdinand Porsche could not find the car of his dreams, so he built his own. Hopefully given all the options and colors you had to choose from you were able to do the same.

If you'd like to continue the journey toward making your dream car a reality, your local Porsche dealer is here to help. They have certified experts who can provide consultation on how you can make your Porsche even more personalized via Porsche Exclusive Manufaktur or Porsche Tequipment vehicle accessories. Of course, they can also assist with finance and lease options.

You can find and contact your nearest Porsche dealership by visiting www.porschedealer.com. From there you are welcome to share your Porsche Code at the bottom of this letter and schedule a visit and a test drive.

We hope to see you soon.

Sincerely,

Your Porsche Team

- *The availability of Porsche Connect services is dependent on the availability of wireless network coverage which may not be available in all areas, and may be subject to eventual technology sunset or deactivation, thus nullifying services. The vehicle equipment necessary to use Porsche Connect is only available factory-installed, and cannot be retrofitted. Likewise, the vehicle equipment may not work with future mobile networks yet to be deployed. Some functions may require separate subscriptions, or data charges may apply.
- **Service will automatically stop at the end of your trial subscription period unless you decide to continue service. All SiriusXM services require a subscription, each sold separately by SiriusXM after the trial period. Service subject to the SiriusXM Customer Agreement and Privacy Policy, visit www.siriusxm.com for complete terms and how to cancel which includes online methods or calling 1-866-635-2349. Available in the 48 contiguous United States, D.C., and Puerto Rico (with limitations). Some services, content and features are subject to device capabilities, an active data connection enabled in the vehicle and location availability.
