Important note on imagery & specifications. We are living through exceptional times. Due to the COVID-19 pandemic, we have been prevented or delayed in the creation of new images of current model year vehicles. Furthermore, the global impact of micro-chip shortages is further affecting launch timings and build specifications, including options and accessories. Until these unique events are resolved, please note that **many vehicle images cannot be updated to 2022/2023/2024 model year specifications.** As a result, available features, options, trim and color schemes may differ from many images shown and therefore you should not rely solely on such images in making purchasing decisions. Please contact your local authorized Land Rover Retailer for detailed 2022/2023/2024 model year specifications.

Jaguar Land Rover Limited is constantly seeking ways to improve the specification, design and production of its vehicles, parts, options and/or accessories and alterations take place continually, and we reserve the right to make changes without notice. Some features may vary between optional and standard for different model year vehicles. The information, specification, engines and colors on this website are based on European specifications and may vary from market to market and are subject to change without notice. Some vehicles are shown with optional equipment and retailer-fit accessories that may not be available in all markets. Please contact your local authorized Land Rover Retailer for availability and prices.

||Driving in floodwaters or moving water should be avoided. Driving through water can be extremely dangerous. The Wade Sensing feature only detects depth of water the vehicle is in at the present time and not of water ahead or around the vehicle. Therefore, Wade Sensing cannot predict whether it is safe to proceed and cannot detect steep drops in grade around the vehicle. The driver is responsible for determining the conditions of the route being driven.

Weights reflect vehicles to standard specifications. Optional extras increase weight.

Optional features and their availability may differ by vehicle specification (model and powertrain), or require the installation of other features in order to be fitted. Please contact your local Retailer for more details, or configure your vehicle online.

While Jaguar Land Rover North America, LLC strives to provide accurate information, certain changes in standard equipment, options, prices, availability or delays may occur that may not be reflected. Options shown or described are available at extra cost and may be offered only in combination with other options or subject to additional ordering requirements or limitations.
