

Partially improved fuel cell vehicle MIRAI

- Improved usability of display audio for connected navigation -

News release , model , Toyota , MIRAI

TOYOTA partially improved the fuel cell electric vehicle (FCEV) MIRAI

Z <Vehicle with options>

Main improvements

- Equipped with Display Audio (connected navigation compatible) Plus. In addition to a high-definition HD wide display capable of full-screen display, it also uses "in-vehicle Wi-Fi[®]"*1, which turns the car into a Wi-Fi[®] spot.

- Added IR cut and high sound insulation functions to the front door glass
- Toyota Teammate [Advanced Drive] Advanced Driving Assistance Technology Adds a Driving Function that Considers the Blind Spots of Other Vehicles : <https://toyota.jp/safety/scene/highway/index5.html>

* 1 Wi-Fi[®] is a registered trademark of the Wi-Fi Alliance. In-car Wi-Fi[®] is a paid option for the T-Connect service

Manufacturer's suggested retail price (including consumption tax)

7,106,000 yen to 8,600,000 yen

* Prices vary in some regions. A separate recycling fee is required.

that's all

Toyota is committed to "mass production of happiness" through the provision of innovative, safe and high-quality manufacturing and services. For more than 80 years since our founding in 1937, we believe that supporting the happiness of our customers, partners, employees, and local communities under the "Toyoda Precepts" will lead to the growth of our company. We have been aiming to realize a livable society that is kind to people and everyone can participate. Today, Toyota is putting even more effort into new technological fields such as connectivity, automation, and electrification, and is about to be reborn as a mobility company. Amid this transformation, we will continue to respect our founding spirit and the SDGs set by the United Nations, and strive to realize a better mobility society in which everyone can move freely.
